

Services for the CHEMICAL INDUSTRY

Chemical pickling procedures

- Immerse pickling
- Spray pickling
- Circulation pickling
- Local weld seam pickling (paste)

- treatment of components of any dimension (pickling baths up to 60.000 ltr.)
- surface treatment documentation
- pickling chemicals
- delivery of pickling facilities and spraying equipment

Electro-polishing

- Tubes and fittings
- Tanks and vessels
- Heat exchangers

- tube lengths up to 18 m, also U-bended tubes
- tanks/vessels up to 50 m³ volume
- heat exchanger plates of all sizes
- heat exchanger tubes
- surface treatment documentation

Our on-site services

Pickling and electro-polishing

Cleaning and passivation of new plants and installations

- cleaning to remove contaminations and installation residues
- passivation for more corrosion resistant surfaces

Refurbishment of plants

- professional repair of corrosion
- re-passivation

Materials

- Austenitic and ferritic stainless steels
- Duplex stainless steels
- Nickel, Aluminium, Copper and its alloys
- Niobium, Titanium, Tantalum, Zirconium
- Special alloys such as Nitinol, Hastelloy®, Alloy 59, etc.
